Un regalo deve essere presentato bene trasmettendo la personalità di chi dona o di chi riceve.

Un gesto simbolico che deve rispettare l'ambiente, utilizzando risorse secondo le più recenti disposizioni e tendenze.

L'intera Collezione Bolis SpA segue le normative producendo semilavorati e finiti completamente riciclabili,

in carta di cellulosa naturale

e derivati da materie prime naturali e quindi compostabili.

L'esperienza si trova qui consolidata con i prodotti più caratteristici per il gift wrapping completamente ideati e prodotti in azienda e diffusi nel mondo ininterrottamente da oltre 90 anni.

Nastri, fiocchi, raffie, carta regalo, shopper Vi augurano una piacevole lettura.

A gift must be well-presented by conveying the giver's or receiver's personality.

A symbolic act that must respect the environment and the used resources in line with the latest regulations and trends.

The entire Bolis SpA Collection complies with the regulations by producing semifinished and finished products that are completely recyclable,

made of natural cellulose paper

and derived from natural raw materials, and thus compostable.

The experience is here reinforced with the most distinctive products for a gift wrapping completely designed and produced in the company and spread around the world continuously for over 90 years.

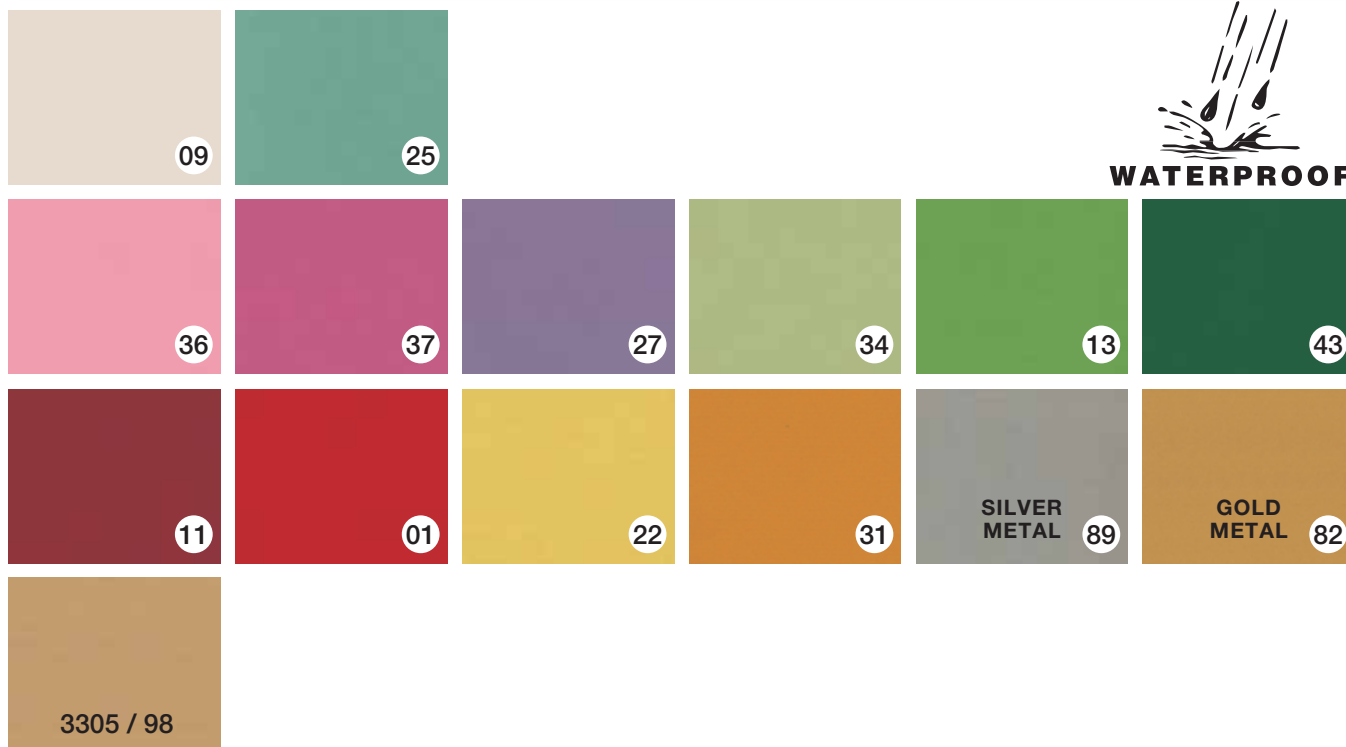

Ribbons, bows, raffia, gift wrapping paper, shoppers wish you a pleasant reading.

Si tratta del materiale eco-compatibile per eccellenza opportunamente trattato al fine di garantire stabilità, tatto e lavorabilità successiva.

Quindi le stelle, i fiocchi ad apertura automatica in aggiunta, ovviamente, al nastro decorativo.

A line of decorative ribbons specifically studied for the most natural environmental care. This is the eco-friendly material 'par excellence' properly treated for ensuring stability, tactile sensation and subsequent workability.

This line includes star-bows, pull-bows and, it goes without saying, the decorative ribbon.
